Call for paper

International Conference 2015 on Spatial Planning and Sustainable Development, Aug. 7-9, 2015, TAIPEI

Smart city governance

The concept of smart city is suggested as a new style of city for providing sustainable growth and encouraging healthy economic activities to reduce the burden on the environment while improving the QoL (Quality of Life) of city residents. Many experimental projects are currently being carried out in the world, which are varied and divers. Many researchers also be actively involved in vitalizing smart city activities and improving the QoL of residents using ICT-representative technology (Information and Communications Technology). For promoting the establishment of smart cities, SPSP2015 is intended to gather researchers and planning consultants who will share their own ideas and the latest results of research and successful case studies in smart city governance.

Kuanghui PENG, PhD, Professor

Conference 2015 Chairman,
National Taipei University of Technology, Taipei

Brian PAI, PhD, Assoc. Professor

Conference 2015 Vice Chairman,
National Chengchi University, Taipei

Topics

- Smart city management;
- Smart infrastructure planning;
- Smart mobility society;
- Smart life style and community;
- Bigdata and Urban modelling;
- Topics related to spatial planing and sustainable development

Important Dates (Draft):

For full paper submission and afterconference publication

- Deadline for abstract (no more than 800 words):15th Feb, 2015
- Notification for the acceptance of abstract:28th Feb, 2015
- Deadline for full paper:15th April, 2013
- There will be a review process for afterconference publication and deadline for revised manuscripts

For abstract only and oral presentation

- Deadline for abstract (no more than 800 words):15th May, 2015
- Notification for the acceptance of abstract:15th June, 2015

Paper submission:

Please use the [on-line submission system](https://easychair.org/conferences/?conf=spsd2015) of SPSP2015

<https://easychair.org/conferences/?conf=spsd2015>

Author Guidelines

SPSP 2015 paper submission and review process is conducted in the following manner:

1) Full paper submission

SPSP 2015 requires authors to submit the title, list of authors, a brief abstract (about 800 words), and a list of 3-6 keywords for each paper before the abstracts submission deadline. Authors can update the above information when submitting the full-length paper.

The length of each paper should not be longer than 18 pages following the format given in the paper template.

Submission of the paper abstract and the full-length paper must be done electronically.

Paper submissions will be reviewed by experts in their respective research fields selected by the conference committee.

2) Afterconference publication

If you like to cooperate with us for after conference publication, please select the option when you submit your full paper. A review process will be conducted and review reports will send out for further revision.

3) Abstract only

SPSD 2015 requires authors to submit the title, list of authors, a brief abstract (about 800 words), and a list of 3-6 keywords before the abstracts submission deadline.

You can do it, too! Create your own free website. Sign up at www.jimdo.com.
